300 kW	Ask us for a price

Price list valid from 01/01/2020

Other accessories

- external feeding - to be agreed
- ecoSTER wireless room thermostat - PLN 400.00 (incl. VAT)
- ecoSTER TOUCH room thermostat - PLN 500.00 (incl. VAT)
- ecoSTER TOUCH wireless room thermostat - PLN 650.00 (incl. VAT)
- 1-week programmable thermostat - PLN 200.00 (incl. VAT)
- wireless programmable thermostat - PLN 450.00 (incl. VAT)
- adjustable room temperature sensor - PLN 90.00 (incl. VAT)
- domestic hot water temperature sensor - PLN 60.00 (incl. VAT)
- outdoor temperature sensor - PLN 60.00 (incl. VAT)
- EcoLAMBDA sensor kit - PLN 1990.00 (incl. VAT)
- B extension module - PLN 650.00 (incl. VAT)
- C extension module - PLN 650.00 (incl. VAT)
- INTERNET EcoNET module - PLN 590.00 (incl. VAT)
- pellet storage hopper (203 L; 290 L; 295 L; 470 L; 770 L; 1,368 L; 1,460 L)

Specifications

Standard and optional boiler accessories

TYPE	EEI PM 300kW
pellets output range (kW)	91–303
FUEL TYPES	
pellet (Class: A1, A2 and B) to PN EN 17225-2:2014	S
HORIZONTAL HEAT EXCHANGER	
boiler steel	S
heat exchanger circuits	3
flue gas turbulator	S
heat exchanger design*	3t
optional closed system	S
pneumatic heat exchanger cleaning	S
automatic ash removal	S
STORAGE TANK	
storage tank: 295; 470; 770; 1,386; 1,460 [l]	O
external feeding	O
fuel feeding from the storage tank to the burner	S
BURNER	
rotary combustion chamber	S
heat resistant steel	S
cylindrical burner design	S
chute burner	S
automatic cleaning	S
heating element - boiler firing	S
pressure fan	S
internal fuel feeder	S
photocell	S
pellet combustion grate	S
efficiency-improving diffuser	S
CONTROL ACCESSORIES	
colour touch control panel	S
boiler temperature sensor	S
burner temperature sensor	S
fuel level sensor	S
door open sensor	S
outdoor temperature sensor	O
central heating temperature sensor	O
domestic hot water temperature sensor	O
return water temperature sensor	O
ecoSTER wireless room thermostat with remote boiler control (up to 3)	O
ecoSTER TOUCH wireless colour touch room thermostat with remote boiler control (up to 3)	O
ecoSTER TOUCH wired colour touch room thermostat with remote boiler control (up to 3)	O
Wireless 1-week programmable thermostat	O
Adjustable room temperature sensor	O
Wired 1-week programmable thermostat	O
EcoLAMBDA oxygen sensor kit	O
optional B extension module (two mixing valve control)	O
optional C extension module (two mixing valve control)	O
optional E extension module (ash removal and pneumatic heat exchanger cleaning control)	S
INTERNET EcoNET module	O

TYPE	EEI PM 300kW
Metal cabinet	S
main switch	S
safety switch	S
indicators	S
CONTROL SYSTEM FEATURES	
optional modules	S
storage tank feeder control	S
burner feeder control	S
pressure fan control	S
ash removal motor control	S
air compressor control	S
pneumatic cleaning nozzle control	S
fuel igniter control	S
central heating pump control	S
return mixing valve control***	S
domestic hot water pump control	S
fuel level sensor control	S
universal output**	S
linear actuator control	S
INTERNET module support	S
mixing valve support	2
maximum number of heating circuits with mixing valves	6
buffer tank control	S
heating circuit mixing valve control	S
boiler pump/buffer tank control	S
recirculation pump control	0
optional four mixing valve control (B module - 2 valves, C module - 2 valves)	0
ecoSTER TOUCH ROOM THERMOSTAT (WIRED, WIRELESS)	
colour touch control panel	S
programmable room thermostat	S
simple and effective temperature control (up to 3 ecoSTER room thermostats)	S
day/night temperature program	S
boiler function adjustment and monitoring	S
remote monitoring of boiler's control panel parameters or other room thermostat parameters	S
operation mode setting: schedule, day, night, heating off, venting, heat now,	
holiday, frost protection, domestic hot water charging, hotel	S
alarm monitoring	S
storage tank fuel level, ash pan cleaning monitoring	S
simultaneous ecoSTER room thermostat, control panel and controller module firmware update with microSD memory card	S
ecoSTER wireless ROOM THERMOSTAT	
programmable room thermostat	S
simple and effective temperature control (up to 3 ecoSTER controllers)	S
remote boiler control: boiler and domestic hot water temperature setting	
on/off: boiler, summer mode, domestic hot water, domestic hot water priority	S
day/night temperature program	S
operating mode select: day, night, heat now, schedule, holiday, empty house, frost protection, domestic hot water charge	S
alarm monitoring	S
storage tank fuel level, ash pan cleaning monitoring	S

TYPE	EEI PM 300kW
1-WEEK WIRELESS PROGRAMMABLE ROOM THERMOSTAT	
2 daily temperature settings from 5 to 30 °C: Day/Night	S
Daily or weekly programming selectable with a switch	S
Quick program selection knob: On/Off/Auto/Holiday	S
Annual service reminder	S
Automatic daylight saving time: summer/winter	S
temperature probe calibration	S
boiler operation time display (excl. domestic hot water)	S
1-WEEK WIRED PROGRAMMABLE ROOM THERMOSTAT	
2 daily temperature settings from 5 to 30°C: Day/Night	S
Daily or weekly programming selectable with a switch	S
Quick program selection knob: On/Off/Auto/Holiday	S
Annual service reminder	S
Automatic daylight saving time: summer/winter	S
temperature probe calibration	S
boiler operation time display (excl. domestic hot water)	S
CONTROL SYSTEMS	
automatic pellet boiler start	S
automatic pellet boiler stop	S
2nd Gen. Fuzzy Logic burner modulation	S
pcw - domestic hot water priority	S
alternative "boiler operation" function	S
output testing	S
1-week domestic hot water temperature program	S
1-week central heating temperature program	S
simple menu	S
outdoor temperature compensation module and buffer tank control via a controller	S
alarm history	S
help system	S
alarm codes	S
service mode	S
ash pan full monitoring	S
feeder air lock prevention system	S
fuel reserve system	S
service reminder	S
languages - multi-language	S
DELIVERY	
delivery to the address indicated	S
24h delivery	S
WARRANTY/years	
boiler body integrity	5
mechanical components and control system	2

The price list for all optional accessories is available on request.

Key

s - standard accessories
o - optional accessories

* reliable and durable steel heat exchanger designed in accordance with 3T rules (time, turbulator, temperature).

** Universal output with support of one of the programmed options:
1 recirculation pump control,
2 auxiliary boiler control,
3 external feeder control.
4 active alarm info

***The control system controls the return mixing valve using a single mixing valve of the heating circuit by enabling this function in the control system
